Proceedings of the Board of Mayor and Aldermen.

At a regular meeting of the Board held at the Mayor's Office, Friday, June 21, 1867. Present—His Honor D. N. Barrows, Mayor; Aldermen, Boyd, Green, Tapley, McLaughlin. The minutes of the last meeting were read and approved.

Alderman Boyd made the following report which was received and agreed to and the claim rejected:

To the Board of Mayor and Aldermen: GENTLEMEN—The committee to whom was referred the claim of Lemuel and Quaker for work done in the city, would report that they have examined the same and find that the work was done on a private lot and on the sidewalk in front of the same, no part of which is chargeable to the city unless by special contract. Your committee would therefore recommend that the account be rejected.

Respectfully,
H. H. BOYD, {Committee.

Alderman Boyd made the following report which was received and agreed to:

To the Board of Mayor and Aldermen: GENTLEMEN—The committee to whom was referred the claim of Mr. Samuel French for building a bridge on South street, near Town creek, would report that they have examined the same and find that the bridge is about 65 feet long and 20 feet wide, containing in all about 4600 feet of lumber. The bridge or work killing by dirt was indispensable where the bridge is built. There was no contract made by any one authorized by this board with the builder, although he understood by a conversation with some member of this Board that he was authorized to build the bridge. The work and material is tolerably good. The price is reasonable enough, considering the payment. Your committee would therefore recommend that a warrant issue to S. French for two hundred and thirty dollars, in full for the material and work on said bridge.

J. H. BOYD, {Committee.

Alderman Boyd made the following report, and the Mayor made a dissenting report.

The Committee to whom was referred the within petition, leave to report that the grievances complained of have been well taken up to this time. But your committee believe from this time forward the pay now allowed will be equal to any other similar salaries. We therefore recommend that the request be not granted.

J. H. BOYD, {Committee.

On motion the Board of Mayor and Aldermen, and on further motion the report of Alderman Boyd refusing to allow additional compensation to the Police was agreed to and the petition rejected.

The following preamble and resolutions were unanimously adopted:

Whereas, The premises now in the occupation of the Jackson Gas Company have been represented as being in a dirty and unhealthful condition, with imperfect drainage for the gas water, and other refuse from the works, and citizens resident about the course of the Town creek below having suffered severely by injury to their cattle through the contamination of the water, and the turning into the said creek of the refuse from said works, and after a series of these complaints continuing without redress or satisfaction;

And whereas, The enclosure of said gas works is in a very unsightly and imperfect condition, and altogether inconsistent with the appearance that such a portion of the City Hall square should present to the public at a time when every effort is being made to improve the condition of the public property of the city;

Therefore, be it resolved, That a notification in due form be served immediately upon the Jackson Gas Company, requiring them within twenty days from the date hereof to put the premises in such a state of cleanliness and order as not to remain a nuisance or detrimental to the health of the community, and to put in good order and condition the enclosure around the gas works so as to make it consistent in neatness and accuracy of appearance with the other fencing of the City Hall square.

Resolved, further, That said Gas Company be requested to furnish this Board, without delay, copies of any lease or grant in writing, under which they claim the present occupancy of the site of the Jackson Gas Works.

Resolved, further, That the clerk furnish a certified copy of the foregoing to the stockholders of said company.

The following resolution was adopted:

Resolved, That the law cannot be evaded so as to keep a billiard table free by selling beer for the privilege of playing; but any one keeping a table in this way must obtain a license in the usual form.

An Ordinance in relation to nuisances was amended and adopted.

Alderman Tapley made a partial report in regard to the removal of certain nuisances, and on motion he was directed to continue his examinations in conjunction with Dr. C. C. United States Marshal of this Post. The petitions of Spangler & Rohrbacher, Angelo Miazza, and F. Guidici, were presented asking the grant of license to retail wine and spirits in the city, which petitions were received and laid over according to law.

The Board then adjourned.

Approved, D. N. BARROWS, Mayor.

Attest: GEO. SMYTHE, City Clerk.

GENERAL WIGFALL—A Kentuckian

writing from London to the Louisville Courier, May 10th, says:

It was a pleasant surprise to me a few days ago, to meet a familiar face on the street here, which I did in that of General Wigfall. We last met before at Hardee's headquarters, in North Carolina, and the Confederate flag was waving over our tent. General W. is living in London with his family.

Rockbridge Alum Springs

VIRGINIA.

A place will be opened June 1st. Arrangements are making to render it more than an attractive resort in quest of recreation, while to the invalid its remarkable medicinal waters hold out new hopes of health.

Its reputation is established as a cure for SCROFULA and most of the Glandular and Cutaneous affections:

CHRONIC DIARRHEA and DYSENTERY, BRONCHITIS, THURSH, Affections of Kidneys and Bladder, DROPSY and PILES.

In all anemic conditions of the system and broken down states of the constitution, loss of appetite and general nervous prostration, their powers and virtue as a RESTORATIVE are without a KNOWN RIVAL amongst the MINERAL WATERS OF THE WORLD! They are especially indicated in the ailments peculiar to the female constitution.

The Springs are distant only 11 hours from Richmond and 12 hours from Washington by rail in the midst of the great mountain ranges of Virginia; in the same county with the famous "Natural Bridge," from which it takes its name, and near to Lexington, Washington College, and the Military Institute; the home of Lee, and the tomb of JACKSON.

For all particulars of routes, location and properties of the water, see Spring's pamphlet, sent free by mail.

The bottled water and the salts of the water (or "mass") can at all times be had fresh and genuine from Hegeman & Co., New York; Coleman & Rodgers, Baltimore; Purcell, Laid & Co., Richmond; and A. B. Rucker, Lynchburg, Va.

Superior Excursion or Mosaic for both land and ball-room in attendance during the season. Daily mails at this office by Virginia Central Railroad.

THE GULLET STEEL BRUSH COTTON GIN.

These celebrated Cotton Gins are again manufactured by the patentee, Mr. H. D. Gullet, formerly of Aberdeen, Miss. Besides many improvements in the ordinary details of Gins, they have an extra carding brush and a steel brush. These combine to clean the cotton of all motes and dust, and deliver it in the lint room, combed to its full length and consequently entirely free from all nap. These results cause cotton ginned on the "Steel brush Gin" to grade higher than the same cotton from any other Gin, and the advanced price obtained from a crop of say 50 bales would pay the entire cost of the Gin. During the past season cotton from the same bolls and picked at the same time, part ginned by the steel brush and part by other Gins has been sold at 2 1/2 cents in favor of the steel brush. After incurring the heavy expense which now attends the raising of cotton it is all important that it should be prepared for market in the best possible manner. This can be effected by using the

STEEL BRUSH GIN.

We are sole General Agents for the south-west and have constantly on hand all sizes of Gins, from 10 to 100 bales.

Descriptive circulars mailed on application.

Merchants securing orders for these Gins or any other of the items embraced in our list will be allowed a proper commission.

COTTON PRESSES.

We are manufacturing for the crop of 1867, an improvement of the Bullock press which will meet all the requirements of cotton packing. It can be worked by hand, horse or steam power. Can be used out doors or in a building, is rapid in its working, of immense power, and makes a bale of exactly the proper size.

For operating this Gin and press we offer the

WOOD & MANN

Portable Steam Engines.

These engines have been long tried and are found in every particular adapted to the wants of plant and neighborhood work. Having two cylinders, and two motion gins, a corn mill and cotton press can all be worked from one engine and at no other place can first cost of engine, no extra shipping being needed. A 6 horse power is ample where it is needed to run one gin or mill, a 10 horse power will run two gins or a corn mill and cotton press.

Larger sizes 15 to 30 horse power we furnish to drive saw mills or large corn and flour mills.

We have long experience in the sale and erection of engines, and are enabled to specify just what is needed in a mill adapted to the heavy timber of the south-west and in the mill as far furnished all the requisites are combined.

We also furnish lighter mills when desired.

LEE & LEAVITT, LANE & BODLEY'S, FILES, GUMMERS, BELTING, CIRCULAR SAWS, SAW MANDRILLS, CORN AND WHEAT MILLS.

These mills have been so long and favorably known in this section it is hardly necessary to say more than they are still manufactured by the patentee, Willis P. Coleman, in New Orleans.

Ten years ago we came to South, have established them a few. All sizes from 14 inch to 36 inch can be run on one mill.
